

March 19, 2021

Dilworth Elementary School Families - St. John Photography will be visiting your school this month to take Color photographs of your children.

Frequently, candid shots produce excellent results in comparison to studio portraits. Individuals are having fun – doing what they normally do – so they appear natural and relaxed. Dress your child as you normally would, formal clothing may inhibit his or her activities. Portraits will be taken outdoors and will be full-body shots, so consider your child's entire outfit from head to toe.

Photographers will be required to perform temperature checks and be masked while on campus. Our photographer's lenses allow them to stay 6+ feet away from your child to take their photograph. Your child will be asked to temporarily remove their mask to have their photo taken.

If rain is forecast, please assume that any showers will be brief and pictures will be taken as usual. If the shoot is rescheduled, please bear with us – pictures taken outside are much nicer than ones in front of artificial backgrounds.

There are no up-front fees or obligations to purchase any of the prints. Proofs will be available online for you to view the week after pictures are taken.

St. John Photography has photographed children at many schools in the Charlotte area; and we know you will be pleased with the truly unique images they are able to capture.

Please email St. John Photography at [info@stjohnphotography.com](mailto:info@stjohnphotography.com) or call 704.889.7800 with any questions you may have.
